

Russell/Mellon Acquires FT Interactive Data's Index Distribution

October 6, 2003 (PLANSPONSOR.com) - Russell/Mellon Analytical Services has acquired the index distribution capability of FT Interactive Data.

Reported by [ERIC HAZARD](#)

-
-  FT's Interactive Data operation current services 27 asset managers throughout Europe. The acquisition will place the Edinburgh, Scotland-based provider of data collection, reconciliation, formatting and distribution of third-party benchmark information under the Russell/Mellon CAPS umbrella, according to a news release.
 - 
 - 
 -  Further, Russell/Mellon plans on expanding the number of indices available to investment managers through this service. The current product set includes data from index vendors such as Russell, S&P, FTSE, MSCI, JP Morgan GBI, and DJ STOXX.
