Job Description

Investics is seeking an eager individual to perform part-time contract work for our ESG product offering. This contract position is ideal for someone looking to break into the impact space and be on the ground floor of a fintech startup. This position is also a great way to gain exposure to the investment analytics and institutional investor arena.

The contractor will participate in the development, implementation, research, strategy, client service and support, sales, marketing, and operational support for Investics' ESG data services. The product specialist will gain exposure to various ESG rating agencies and Amazon Web Services (AWS), via Investics' product offerings, and assist in developing, implementing, and managing Investics' own sustainability strategy.

The contractor should have some knowledge and be interested in the investment data, analytics, and ESG practices. Although not required, it would be ideal for the candidate to have demonstrated familiarity in cloud services, in particular Amazon Web Services (AWS).

Candidate will work as an independent contractor with our founding president and other members of the Investics team. Schedule and time commitment will be determined solely by the contractor. Compensation is commission based on net product sales profits and client consulting/contracting work the contractor performs on the behalf of Investics. Includes participation in the company profit sharing plan. Open office environment with complementary selection of breakfast, lunch, snack and beverage options provided. Three minute walk from office to downtown Weston's various shops and restaurants. Free on-site office parking is provided. Thirty minute walk from office to Kendall Green MBTA commuter rail station.

To be considered for this opportunity, please send your resume and a brief write-up of why you are interested in this role to: info@investics.com.
